# PARALLEL SESSION DESCRIPTIONS:

## MOC SELF-ASSESSMENT: PEDIATRIC DERMATOLOGY

*Katherine Puttgen, MD, Johns Hopkins University*

This session is geared specifically for those enrolled in MOC-D. It features short case studies that relate to the diagnosis, treatment and management of pediatric dermatologic conditions. Participants will answer questions, see how their colleagues responded and then engage in a detailed review of all the responses. Upon completion, attendees will earn credit for 35 of the 100 self-assessment questions they must complete every three (3) years in MOC. Note that this is a different program than the one offered at each AAD Annual Meeting. A minimum of 25 people will be required to hold this session.

## GETTING THINGS DONE: PROJECT MANAGEMENT FOR PEDIATRIC DERMATOLOGISTS

*Ilona Frieden, MD, University of California, San Francisco  
Beth Drolet, MD, Children's Hospital of Wisconsin*

Have a great idea you want to implement? As busy professionals we need to get things done but most of us have not been given specific tools for seeing a project through from beginning to end. This workshop will borrow from the business world and demonstrate "project management" tools that can help in initiating, organizing, and motivating others to complete projects. Examples could be as diverse as planning an initiative to advocate for changing tanning bed laws to exclude minors, working with a medical student or resident on a research project or case report, or planning and executing a PeDRA study. Constructive tools will be presented to help with defining scope, time lines, milestones, and deliverables to get projects done. This will be a workshop format: during the session, participants will have the opportunity to utilize and apply project management tools to their own or case-study examples.

## BE A MENTOR, FIND A MENTOR

*John Browning, MD, Baylor College of Medicine, Moderator;  
Jane Bellet, MD, Duke University; Meena Julapalli, MD, University of Colorado, Denver; Sheilagh Maguiness, MD, University of Minnesota Children's Hospital; Elaine Siegfried, MD, St. Louis University; Jeff Sugarman, MD, Ph.D., University of California, San Francisco*

Join this interactive discussion led by a panel of mentors and mentees. Each will share their personal mentoring experiences, ranging from how to find a mentor to how to become one. You will gain insight on good mentorship from both a mentor and mentee perspective.

## CALL FOR CASE, POSTER, & FORUM PRESENTATIONS

Attendees are invited to submit case summaries and poster abstracts for review and selection to be presented during SPD's 41st Annual Meeting. There are three categories:

### CASES OF THE YEAR

This category includes cases with a known diagnosis. It should have attendant teaching value. SPD encourages all those interested in submitting a case of the year to first review the examples posted online at [www.pedsderm.net/meetings/cases-of-the-year-submissions/](http://www.pedsderm.net/meetings/cases-of-the-year-submissions/). The template cases will help provide guidelines for preparing a submission.

Moderator: *Rob Hayman, MD, SUNY-Stony Brook*

Please note that if a submitted case is chosen to be presented as one of SPD's "Cases of the Year," it will not be simultaneously assigned a poster space. Submitted cases not chosen for a "Cases of the Year" oral presentation may be presented as a poster; however, SPD will give preferred assignment of space to research-oriented work.

### JUNIOR FACULTY & FELLOWS FORUM

This category includes basic science, clinical research projects, and case series with literature reviews that were conceived and/or conducted by pediatric dermatology fellows and/or junior faculty out of training for five years or less.

Moderator: *John Browning, MD, Baylor College of Medicine*

### POSTER PRESENTATIONS

Limited to 40 posters. Awards will be presented for the best posters. Dimensions of the poster are not to exceed 4' x 8'.

Poster chair: *Brittany Craiglow, MD, Yale University*

All Cases of the Year, Junior Faculty & Fellows Forum, and Poster abstracts must be submitted online at [www.pedsderm.net/meetings/cases-of-the-year-submissions](http://www.pedsderm.net/meetings/cases-of-the-year-submissions) by May 16, 2015.

Please remember that representative photos (jpeg files preferred) must be submitted at the time of application for Cases of the Year or the case will not be considered.

There will be two \$1,000 awards available for the SPD 2015 Annual Meeting. Members who qualify will apply through the SPD website at the time of submission of cases and posters. The SPD Awards and Goals Committee will evaluate the quality of the case/poster, focusing on whether it presents "new" information, is relevant to care of children with skin diseases, quality of data, and approved consent process.

The AAP Section on Dermatology will offer one \$1,000 Travel Award, open to residents or fellows who present cases or posters at the Annual Meeting. Preference will be given to abstracts that focus on pediatric dermatology education, workforce, Medical Home and collaborating with pediatrician partners.
